Organising for Equality and Decent Work in Higher Education

IFUT is the only union in Ireland that exclusively represents workers in Higher Education. We represent lecturers, researchers, teaching assistants and teaching fellows, tutors, demonstrators, librarians, certain administration grades and more.

WHAT WE STAND FOR

STRENGTH

IFUT stands for the advancement of higher education and research and the promotion and protection of academic freedom. We bring thousands of members across the sector together to advance the priorities of our members.

PROTECTION

IFUT stands for the safeguarding and advancement of terms and conditions of employment and of our professional interests. We are the only union exclusively representing workers employed in higher education. We negotiate with employers and with the relevant government departments to advance and protect our members' interests.

SUPPORT

IFUT stands for the provision of benefits to members. We represent hundreds of members on individual cases ranging from issues with promotion processes, fixed term contracts, unfair dismissal, bullying and harassment, health and safety and equality issues.

We are here when our members need support.

Your concerns are our priority
